Below are YE specific definitions and field variables used in aggregate data delivery.

Industry Segments (LEN)

BDRC uniquely categorizes industries by all 6 digit NAICS and groups them into 3 main categories:

1. **L**ocal - proportional to the region's size these industries primarily serve the local market
2. **E**xternal - industries that concentrate in particular regions but sell products or services across regions and countries
3. **N**on Trade - healthcare, government, non-profit, religious

Establishment Types

BDRC uniquely categorizes establishments into 3 distinct types:

1. Total (All) - count of all establishments in a region
2. Resident - a standalone business or one that reports to another business located in the same region
3. NonResident - establishments that have headquarters out-of-region
4. NonCommercial - educational institutions, post offices, government agencies and nonprofit organizations

Employment Stages

Self Employed (1): Sole Proprietor
One 2-9: Small Businesses
Two 10-99 (Second Stage): Middle Market
Three 100-499: Middle Market
Four 500+: Large Businesses

Churn Definitions Used in YTS

Gain
